

motivVISION™

COMPREHENSIVE VISION BENEFITS

We offer full coverage for routine eye exams.

Annual eye exams are crucial for maintaining your overall eye health. Regular exams can detect and address vision problems, eye diseases, and other issues early.

Prescription Eyewear

MotivVision covers prescription eyeglasses and prescription contact lenses. Depending on your plan, this coverage may be either full or partial. Whether you prefer glasses or contacts, MotivVision ensures you have the best options for clear and comfortable vision.

MotivVision is Network Free!

You can receive care from any vision provider of your choosing—no network restrictions. Instead of going through a claims process, you'll submit a reimbursement form manually or through your member portal. Call our PHAs at **844-234-4472** and they'll be happy to walk you through the process.
