

motivhealth®

MotivRx looks beyond the pharmacy counter to help you save.

MotivMembers save an average of **\$600** annually on their prescriptions.

Alternative Formulary

We have equivalent formulary options so you can access the same types of prescriptions at a lower cost.

Rx Assistance Analysis

We proactively review your medications to identify cost savings opportunities.

Price Optimized Pharmacy

We identify the most cost-effective location and way to fill your prescription.

HOW WE DO IT:

Copay Card Discounts

We help you participate in copay assistance programs that reduce and even eliminate costs.

International Sourcing

We source prescriptions from pharmacies in Canada and Europe for a much lower price.

WHAT MOTIVMEMBERS ARE SAYING

“She helped me out for about an hour to find prices for all my medications - which is a lot! She figured out what pharmacy would be the cheapest and how much would be supplied.”

“She went above and beyond to look into things for me and is going to follow up tomorrow. I just haven’t had an experience like that, or can’t remember the last time I did, when it comes to healthcare.

Call us at 385-247-1030 to get started or if you get a denial at the pharmacy. A denial doesn’t always mean you cannot get your drug—it’s simply a method to help us find a more cost-effective alternative.
